EW2010 Series Round LED Pedestrian Arrow

ECCO's EW2010 LED Pedestrian Arrows are designed specifically for material handling applications to provide a visual warning for pedestrians in the vicinity of mobile equipment. These lights are intended as a supplemental safety device in addition to a 360° warning light and project a bright blue or red arrow onto the ground either in front or to the rear of the vehicle. This additional safety feature is especially useful where blind corners are present (i.e. warehouse racking) and is likely to be seen by pedestrians that are not looking up or paying close attention to their surroundings. Featuring 12-60 VDC operation, an aluminium housing, and polycarbonate lens, the EW2010 is extremely resistant to impact and vibration damage.

Dimensions

Models

PART NO.	ILLUMINATION	VOLTAGE	AMPS
EW2010B	Blue	12-60	0.6
EW2010R	Red	12-60	0.6

Features and Benefits

- Blue or Red Illumination
- Three 3-watt LEDs
- Pedestrian warning for material handling applications
- Polycarbonate lens
- Aluminium heatsink housing
