Installation

Attach and secure the controller onto the panel stand. Place the device onto a clean desired surface, where it can be easily accessible to the user. Use the attached adhesive pad* to secure the device onto the surface. Should you wish to remove / re-locate the controller, you may use alcohol or similar cleaning formula to remove the left-over adhesive residue.

* The supplied adhesive pad is designed for one time use. You may replace it with other double side adhesive tapes.
