

# TRALET<sup>®</sup> ARCUS SERIES

**Mounting your LED warning lights has never been easier.**

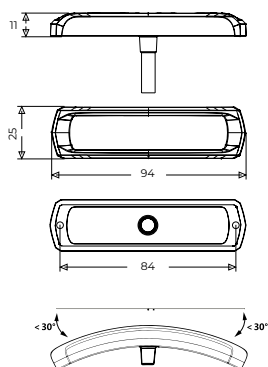

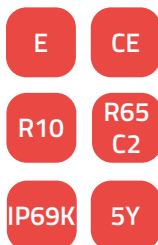

This unique, brand new series of LED warning lights features a flexible housing with a bending radius of 30°. This allows the Arcus Series to be mounted on almost any body part of your vehicle. The series is available in two variants, with four or six LEDs. Both versions feature 14 flash patterns, 10-33V multivoltage and an IP69K waterproof housing.
