

MV-7000 SERIES LED DOUBLE BURNER

New in the TRALERT® marker light range: the MV-7000 series of LED double burners. These lights, specially developed for trucks, are available in amber (art. MV-7000A) or white (art. MV-7000W).

These double burners have a 15cm cable, are IP67 waterproof and are 24V. This makes them very suitable for mounting at the front of your truck. This makes the MV-7000 series double burner the ideal marker light to complete your truck's lighting package.
