

LED rear lights
VC-4000 series

The VC-4000 series LED rear lights from TRALERT® offer a revolutionary improvement in lighting and safety for your trailer and caravan. With clear and energy-efficient LED technology, these rear lights provide excellent visibility and increased visibility on the road. Unique to this multifunctional lamp is the neon effect.

The robust housing and waterproof features make the VC-4000 series suitable for harsh conditions. What's more, these rear lights are easy to install and compatible with a wide range of vehicles. In terms of connection, you can choose between a 200 cm cable with an open wire end, a 5-pin bayonet or an 8-pin bayonet. This makes connection quick and easy, allowing you to get on the road safely and well lit.
